For PC's only, a downloadable program to solve equations and explain each step.

http://www.ct4me.net/math_resources.htm

For Middle School mostly.

www.mathwiz.ca

Uses the grade 10 math curriculum for Ontario. Very close to ours.

Costs \$80.00 per year or \$50.00 per semester. Delivers concepts in audio/video format.

<http://www.kutasoftware.com/free.html>

Kuta software creates various tests and quizzes at several grade levels.

<http://www.tsm-resources.com/>

www.youtube.com

Just type in the math concept and begin searching.

MORE ON THE BACK

<http://www.thegreatmartinicompany.com/>

Lots of Flash Cards for P-9 level. Some use in grade 10.

http://lrt.ednet.ns.ca/PD/HS_Math_Website/High_School_Math.html

Lots of material from the Department of Education along with many links to other resources.

<http://www.mathgoodies.com/lessons/>

Middle school resources here

<http://skyview.billings.k12.mt.us/departments/math/videos/>

Videos on various math concepts

<http://www.explorelearning.com/>

Using “Gizmos” and videos for math concepts

<http://www.mathwords.com/>

As the name suggests, lots of definitions of math terms.

Printed Resources

www.sharpemathematics.com

A series of workbooks for senior high math by Todd Sharpe that are widely used in NS. Cost is approximately \$35.00 which includes shipping. Great for those who need step-by-step exercises to build math skills.

Book # 1204 for Grade 10 academic and "Plus"

Book # 2204/2205 for Grade 11 academic

Book # 3204/3205 for Grade 12 academic
