

**\*\*Be sure to check out the Exam Schedule in this issue\*\***

It's June! Once again, we're gearing up for the end of the year. It's hard to believe exams start in 8 days!

The exam schedule is on the website and in this newsletter. Students must have a medical note if they miss an exam.

We are waiting for the new attendance policy with hopes it will be in place in September.

A huge thank you to the parents who worked so hard to put on a very successful prom and safe grad. There were many tired but happy faces on Sunday morning! I know the parents would want me to thank the staff liaisons for the events: Ms. Longaphy and Mrs. C. Smith along with the other staff who helped the parents with set up, running the events, and clean up.

Thank you to Mr. Hutten for two lovely end of year concerts. It is great to listen and appreciate the work that he and the students put into their music. The band parents deserve huge credit as well for a successful year including three tours.

The final middle school dance is this Thursday. We would love a couple more chaperones!

There will be one more newsletter at the end of the month detailing summer hours and staffing changes so stay tuned.

Our closing and graduation information is on the calendar. Enjoy the end-of-year festivities!

Janice Foote  
Principal

### **STUDENT SERVICES DEPARTMENT**

**For Grade 12 Students:** Please pass information regarding any and all financial awards you have received for your post-secondary studies, (including: entrance scholarships, bursaries and other financial awards) to Ms. Keddy as soon as possible so students can be recognised during graduation.

#### **International Students**

The International Student Program is an important program for the CK school community. One of the challenges in keeping the program thriving is having families who can host students. We have a number of students who would like to attend CK this fall but still require a home. We need to have placements for these students by mid-June or they will go to another school. Please contact Christa Ryland, Homestay Coordinator, at [cdryland@avrsb.ca](mailto:cdryland@avrsb.ca) if you are interested in hosting an international student this year.

#### **Lyme Disease Awareness**

It's a great time of year to enjoy the outdoors but we need to be aware and careful in areas where there may be blacklegged ticks (also called deer ticks). These are very small ticks - sometimes as small as the period at the end of this sentence. They can carry the germ that causes a bacterial infection called Lyme disease. Deer ticks are found across Nova Scotia.

Follow these steps to help protect against ticks:

☑ Apply insect repellents containing DEET or Icaridin to exposed skin and clothes. Follow directions on the package carefully.

☑ Wear light coloured, long-sleeved shirts and pants, closed-toed shoes, and tuck shirts into pants, and pant legs into socks.

☑ Keep lawns mowed short.

☑ Put playground equipment in sunny, dry places away from wooded areas, yard edges, and trees.

☑ Check your whole body for ticks and, when possible, take a bath or shower within two hours of coming indoors. This makes it easier to find ticks and washes away loose ones.

☑ If you find ticks, here's how to remove them safely:

○ Carefully grasp the tick with tweezers as close to the skin as possible.

○ Gently and slowly pull the tick straight out. Do not jerk, twist or squeeze it.

○ Clean and disinfect the site with soap and water, rubbing alcohol, or hydrogen peroxide.

○ Dispose of the tick in a sealed plastic bag and put in the garbage.

○ Do NOT burn, squeeze or coax a tick's mouthparts from your skin using other methods.

The first symptom of Lyme disease is usually a rash that may look like a bull's-eye target near the tick bite. The rash can appear anywhere from 3-30 days after the bite. Symptoms such as fever, headache, tiredness, stiff neck, pain and swelling in the joints, and general body aches and pains may develop. If symptoms appear, it is important to contact a health care provider. Lyme disease can be treated with antibiotics.

To access an educational video for kids about how to protect against tick bites, and to learn more about Lyme disease and blacklegged ticks, visit <http://www.novascotia.ca/hpp/cdpc/lyme.asp> or call your local Public Health office at 542-6310.
